

UNION VILLAGE NURSERY SCHOOL

Mission Statement

We strive to provide a quality program to stimulate the social, emotional, physical and intellectual development of pre-school aged children. We present a positive and happy learning environment for each of our students. Our curriculum is geared so that each child has the opportunity to discover his/her own capabilities, express his/her ideas creatively and most importantly, develop a strong feeling of self worth.

We believe in the integrity of every human being. We teach and care for our children to:

- ♥ Build a good self image
- ♥ Provide a nurturing environment in which our children feel confident
- ♥ Show children the respect the natural world deserves
- ♥ Ensure a safe, clean and inviting school environment
- ♥ Maintain consistent discipline
- ♥ Model love, trust, patience and understanding
- ♥ Invite group participation and intellectual stimulation
- ♥ Expand each child's imagination
